

Answers to reading task 1

Developing inference skills

Being able to explain your answer is very important – if you can explain your answer, there will be more chance you will get full marks.

Story 1

Lola opened her eyes and realised that it was morning. She felt disappointed that she wasn't really flying on a magic carpet and wearing those wonderful clothes.

What had Lola been doing ? How do you know ?

Lola had been asleep, she had been dreaming and she had been having a dream about wearing wonderful clothes and flying on a magic carpet. I know this because it said she opened her eyes and it was morning and that she felt disappointed she wasn't really flying on a magic carpet and wearing **those** wonderful clothes which implies that that was happening in her dream. A key word here is **those** as it implies that she wasn't just thinking about it - it was like it had really happened because it was a dream.

Did you get all three points ?
